 - Secure Payment

```
class A
{
    int num = 22;
    disp() { "A "; }
```

```
class B extends A
{
    int num = 23;
    disp() { "B "; }
```

```
}
```

class exec.

```
{
    main()
    {
```

```
        A objA = new A();
```

```
        objA.num; objA.disp();
```

```
        B objB = new B();
```

```
        objB.num; objB.disp();
```

```
        A objA2 = new B();
```

```
        objA2.num; objA2.disp();
```

```
        B objB2 = new A();
```

```
        objB2.num; objB2.disp();
```

```
    }
```

```
}
```

- output

played around with the code as well.

- Hibernate
- Hibernate VS JDBC
- 'volatile' keyword.
- Collections hierarchy.
- how many did you implement among the hierarchy.
- arraylist vs vectors.
- Threading
- Sync method VS sync block.
- What kind of work would you like to do.
- If you had to simplify one thing in your life using technology, what would it be?
- मुरगी पहले आयी या अण्डा?
